

SUBLICRYLIC

IMPRINTING MEMORIES

www.sublicrylic.com

Sublicrylic is a revolutionary new product from Transfer Supplies that brings to life full colour imaging potential of acrylic to the sublimation decorator, without the need for expensive investment in hardware.

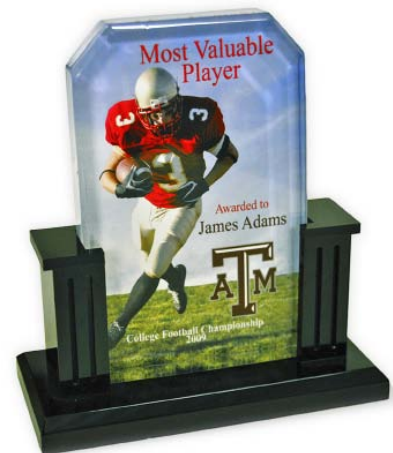

Sublicrylic can be decorated easily by using a standard heat press and transfer paper.

Most clear substrate solutions require expensive specialised laser systems or decoration by a 3rd party vendor. Unnecessary! don't spend money on expensive hardware that can be used for one process or give up your margin to outside vendors! Use **Sublicrylic** with a standard dye sublimation system - printer, inks, transfer paper and heat press - to produce vivid colour and fantastic detail onto great looking acrylic gift products.

GIVE YOUR BUSINESS A CLEAR WINNER...

GET SUBLICRYLIC!

Sublicrylic is available in a range of high quality crystal clear awards suitable for anything from athletics awards or high end corporate recognition systems
